A DIVERSE COMMUNITY

With students from over 30 different countries, BIST is a truly international, multicultural environment, which fosters a global understanding, cross-cultural friendships and appreciation for diversity.

LEARNING OUTDOORS

The campus, which extends over 17,000 square metres, is situated next to a natural lake, on the hills overlooking Tbilisi. Our large outdoors spaces for sports, learning and play accommodate all age groups.

MODERN FACILITIES

BIST's spacious cafeteria, library, classrooms and flexible learning spaces are arranged around our courtyard. All classrooms are fully equipped to support innovative teaching and interactive learning.

BIST aims to challenge and inspire students in a stimulating and caring environment, prepare them for education beyond school and allow them to acquire the skills and knowledge to achieve their goals and dreams. We motivate and engage students by consistently acknowledging, rewarding and celebrating their achievements.

Our teachers and learning support staff are committed to helping students become confident learners and individuals who are able to live healthy and fulfilling lives by developing high self-esteem and self-worth from a young age. Our students cultivate tolerance, respect for diversity and embrace multiculturalism.

HIGH QUALITY EDUCATION IN TBILISI

Our mission is to equip students with the essential knowledge, skills and expertise they need to realise their full academic and personal potential, and to succeed in work and life in the increasingly dynamic 21st century. This includes the development of academic subject knowledge and understanding, as well as intellectual, personal, social, emotional and physical skills.

We ensure personal achievement and success by providing high quality teaching with high expectations for student achievement. At BIST we believe that each student deserves attention, respect and an opportunity to develop their potential. We maintain channels of communication and feedback with our families, to ensure academic and social success of students.

BIST is proud of our team of highly qualified, experienced, globally-minded and international teachers, who are passionate about their profession and who enjoy working in our multicultural classroom environments.
Our teachers are native English speakers coming mostly from the UK.

BEYOND THE CLASSROOM

Outdoor learning spaces and interactive playgrounds foster opportunities for imagination, creativity, and exploration in the natural world. Lisi Lake offers the school an amazing resource which is used for sport and outdoor learning. Excursions and overnight trips provide students with an educational experience away from their regular school environment, and are an integral part of the educational programme at BIST. Trips are organised around specific topics in the curriculum or as team-building exercises. BIST students frequently participate in local and international sports competitions and intellectual tournaments.

SPORTS & RECREATION

Our expansive sports and recreation facilities include a swimming-pool, sports hall, multi-purpose court for basketball tennis and volleyball, and all-weather playing field for football or rugby. This promotes an active and healthy lifestyle, whilst also encouraging students to develop team-building and leadership skills.
